SUBJECT INDEX—VOLUME 100, 2012

Subject entries are in **boldface,** with cross-references in plain typeface. Titles of books, journals, and software are in *italic.* Last names of authors, or "et al." if three or more, are in parentheses. See Author Index for names of all authors. Page numbers for online-only items (available at www.pubmedcentral.nih.gov) are preceded by E. *Supplement* is with the October issue.

Academic Medical Librarian of the Year, *see* **Brodman (Estelle) Award for Academic Medical Librarian of the Year**

Adverse effects
Failure or success of electronic search strategies to identify adverse effects data (Golder and Loke), 130–4

Alpi, Kristine
Research, Development, and Demonstration Project Grant, recipient, E8

Annual Meeting Scholarship, MLA
Dobbins, Montié, recipient, E7

Architecture and buildings
Building projects: redefining hospital libraries (Shipman, et al.), 166–70

Does Bradford's Law of Scattering predict the size of the literature in Cochrane Reviews? (Nash-Stewart, et al.), 135–8
How well are journal and clinical article characteristics associated with the journal impact factor? a retrospective cohort study (Lokker, et al.), 28–33
The persistence of error: a study of retracted articles on the Internet and in personal libraries (Davis), 184–9, Correction, 329

Using an automated tool to calculate return on investment and cost benefit figures for resources: the Health Sciences and Human Services Library experience (Bodycomb and Del Baglivo), 127–30
Shirkey, Clay
John P. McGovern lecturer, E6, E7
Smartphones, *see* **Cellular phones**
Social networking
Evolution, revolution, or obsolescence: an examination of writings on the future of health sciences libraries (McGowan) [comment and opinion], 5–9
Miss Manners for social networking: a new role for medical librarians? (Atlas), 239–43
Response to "Evolution, revolution, or obsolescence: an examination of writings on the future of health sciences libraries" (Coletti and Goldstein) [letter], 156
Use of social network analysis tools to validate a resources infrastructure for interinstitutional translational research: a case study (Hunt, et al.), 48–54
Socioeconomic factors
Improving an outreach service by analyzing the relationship of health information disparities to socioeconomic indicators using geographic information systems (Socha, et al.), 222–5
Software, *see* **Computer software**
Starr, Susan
MLA President's Award, recipient, E10
Students, nursing
Utilizing grounded theory to explore the information-seeking behavior of senior nursing students (Duncan and Holtslander), 20–7
Subject headings
Improving information retrieval using Medical Subject Headings Concepts: a test case on rare and chronic diseases (Darmoni, et al.), 176–83
Surveys and questionnaires
Health information seekers in Japan: a snapshot of needs, behavior, and recognition in 2008 (Sakai, et al.), 205–13
The Internet and health information: differences in pet owners based on age, gender, and education (Kogan, et al.), 197–204
Survey research: we can do better (Starr) [editorial], 1–2
Tomorrow's academic health sciences library today (McGowan), 43–6
Symantic MEDLINE, *see* **Natural language processing**
Systematic reviews
Does Bradford's Law of Scattering predict the size of the literature in Cochrane Reviews? (Nash-Stewart, et al.), 135–8
Evidence-based medicine at the intersection of research interests between academic health sciences librarians and medical educators: a review of the literature (Dorsch and Perry), 251–7
Tannery, Nancy
Estelle Brodman Award for Academic Medical Librarian of the Year, recipient, E8–9
Tests, *see* **Educational measurement**
Thomson Reuters/Frank Bradway Rogers Information Advancement Award, recipient, *see* **Rogers (Thomson Reuters/Frank Bradway) Information Advancement Award**
Translational medical research
"Genomics and Translational Medicine for Information Professionals": an innovative course to educate the next generation of librarians (Cleveland, et al.), 303–5
Use of social network analysis tools to validate a resources infrastructure for interinstitutional translational research: a case study (Hunt, et al.), 48–54
Use studies
Usability study of a mobile website: the Health Sciences Library, University of Colorado Anschutz Medical Campus, experience (Yeh and Fontenelle), 64–8
Using an automated tool to calculate return on investment and cost benefit figures for resources: the Health Sciences and Human Services Library experience (Bodycomb and Del Baglivo), 127–30
User-computer interface
Usability study of a mobile website: the Health Sciences Library, University of Colorado Anschutz Medical Campus, experience (Yeh and Fontenelle), 64–8
Veterinary medicine
The Internet and health information: differences in pet owners based on age, gender, and education (Kogan, et al.), 197–204
Virginia L. and William K. Beatty MLA Volunteer Service Award, *see* **Beatty (Virginia L. and William K.) MLA Volunteer Service Award**
Wang, Lei
Thomson Reuters/Frank Bradway Rogers Information Advancement Award, recipient, E10
Wellik, Kay E.
Virginia L. and William K. Beatty MLA Volunteer Service Award, recipient, E8
